

Communication

Date	02 July 2026
Team ID	XXXXXX
Project Name	OptiCrop – Smart Agricultural Production Optimization Engine
Maximum Marks	1 Mark

Communication Plan:

Effective communication played a vital role in the successful development and demonstration of the OptiCrop project. A structured communication strategy was followed throughout the project lifecycle to ensure smooth coordination among team members, timely completion of tasks, effective issue resolution, and continuous progress monitoring. Various communication channels such as WhatsApp, Google Meet, phone calls, and shared documents were used to facilitate collaboration and information sharing. Regular meetings and progress reviews helped the team track milestones, discuss challenges, gather feedback, and make necessary improvements. This communication plan ensured transparency, accountability, and efficient teamwork, contributing significantly to the successful implementation and demonstration of the OptiCrop – Smart Agricultural Production Optimization Engine.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp Group, Google Meet	All Team Members	Discuss daily tasks, progress, and upcoming activities.
2	Progress Update	Weekly	Google Meet, WhatsApp	Team Members and Team Lead	Review completed work and track project milestones.
3	Issue / Bug Discussion	As Needed	WhatsApp, Direct Calls	Development Team	Identify, discuss, and resolve technical issues and bugs.
4	Stakeholder Review	Bi-Weekly	Google Meet	Team Members, Mentor	Present project progress and collect feedback for improvements.
5	Final Demo Rehearsal	Once	Google Meet	Entire Team	Practice project presentation and demonstration before final evaluation.

6	Documentation Review	Weekly	Google Docs, WhatsApp	Entire Team	Verify project reports, documentation quality, and submission readiness.

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Coordinating tasks and schedules among team members due to different academic commitments.	Regular communication through WhatsApp and weekly meetings helped track progress and assign responsibilities effectively.
2	Integrating machine learning models with the Flask web application and ensuring accurate predictions.	Conducted multiple rounds of testing, debugging, and validation to ensure smooth integration and reliable performance.
3	Managing project documentation and maintaining consistency across reports and deliverables.	Established a common document structure and performed periodic reviews to ensure accuracy, completeness, and uniform formatting.
